4. Once all required information is received by the Access and Flow Coordinator, the clinical team at the program reviews the referral within one to two weeks depending on program demand and volume of referrals.
5. If the referral is accepted, the Access and Flow Coordinator informs the Health Authority Liaison.
6. The Health Authority Liaison will place the client on their region's waitlist.
7. When a bed is available, the Health Authority Liaison is notified by the Access and Flow Coordinator.
8. The Health Authority Liaison prioritizes and identifies a client on the waitlist for the available bed.
9. The BCMHSUS Access and Flow Coordinator coordinates with the program/service provider to plan intake.

If a client is not a match for the requested BC Mental Health and Substance Use Services program, a letter of alternate recommendations will be provided to the Health Authority Liaison. In the instance where another BCMHSUS program is a better match, the Health Authority Liaison will be advised and they have the option to forward the referral to the recommended program.
